
COMPANIES AT

FARNBOROUGH 2022

<p>AEROSPACE MATERIAL MANAGEMENT S.R.L. (AMM S.R.L.) Via Italia, 159 20874 Busnago (MB) Tel. +39 010 550851 www.ammitaly.it</p>	<p>AMM Italy is a leading Italian aerospace material distributor. The company -privately owned- was founded in 2011. The company has grown steadily thanks to the targeted support and tailored supply chain services plus the constant search for innovative solutions. A prominent advantage is the possibility to have a vast inventory of aluminum, titanium, steel and superalloy products in most of the existing forms.</p>
<p>ASE Via Verdi, 33/35 20010 San Giorgio Su Legnano (MI) Tel. +39 0331 402216 www.ase-spa.com</p>	<p>ASE is a world-class supplier of Electrical Power Generation and Distribution Systems for the Aerospace and Defence Industry from concept through to integration and certification.</p> <p>With its origin going back to the early '50s, ASE has acquired strong know-how and experience over the years. Integrated Systems include:</p> <ul style="list-style-type: none"> - AC and DC Power Generation - Power Management & Control - Primary and Secondary Power Distribution - Power Conversion <p>The mission of ASE is to provide non-negotiable quality standards, competitive pricing and on-time deliveries. Customer satisfaction is a central aspect of ASE's strategy and everyday source of continuous improvement.</p>
<p>AVIOCHEM Via Artigianale, 29/A 25010 Montirone (BS) Tel. +39 030 2170211 www.aviochem.it</p>	<p>Aviochem is specialized in aerospace chemicals and solutions - both developed and traded - in the area of surface treatment, sealing and composite.</p> <p>Aviochem is an Aerospace Stockist for the products for which they act as agents as well as for the one request by the market or following specific customer needs.</p> <p>Aviochem has an expertise on chemical products management (i.e. stocking, handling, shipping and obsolescence management) and is regular distributor, with stock in house of a wide range of its represented products.</p> <p>The company operates as agents, on an european scale, for various OEMs: sealants, joints and seals, structural adhesives, aramidic and aluminum honeycombs, dry and thermoplastics preimpregnated fabrics; MIL-spec plastic media, aerospace stencils and stickers and composite finished parts.</p>

<p>BRANCARO INDUSTRIES Via Monte Grappa, 3 21010 Cardano al Campo (VA) Tel. +39 0321 494021 www.brancaro.com</p>	<p>Brancaro Industries is specialized in the design, development and production of Electronic Boards and assembly of avionics equipment.</p> <p>Products: We develop custom Avionics & Electrical equipment, tailored on your specific design and requirements.</p> <p>Technologies: PCB Assembly (SMD, THT, COB)/Testing/Manufacturing.</p> <p>Services: Equipment design services, covering the full D&D, Testing and Qualification cycle.</p>
<p>CORDON ELECTRONICS ITALIA Via San Martino, 7 20864 Agrate Brianza (MB) Tel. +39 039 64181 www.cordongroup.it</p>	<p>CORDON ELECTRONICS Italia is a Microwave & Photonic Design, Engineering & Manufacturing Specialist for Aerospace, Defense & Telecom. From Component to Sub-System</p> <p>CORDON Italia is born in 2017 form the acquisition of the operations of Linkra and Compel Electronics, two Italian historical companies (over 40 years of experience) in the Microwave, Photonic and Electronic field.</p> <p>It is part of the French Group "CORDON" manly active in the Electronic Service and Logistics with an international footprint. CORDON Italia is the second acquisition of the Group in Defense sector after the purchase of an AIRBUS defense site in Val de Reuil (France).</p>
<p>ITALIANA PONTI RADIO Via Cà Bassa, 67 21100 Varese Tel. + 39 0332 331417 www.ipreurope.com</p>	<p>IPR is currently one of the top European manufacturers of fixed and mobile communication data link systems – LOS COFDM and BLoS Satellite - for fixed and rotary wings platforms, manned and unmanned for Surveillance, Border Control and Security.</p> <p>Founded in 1984, IPR is one of the most appreciated suppliers of airborne systems such as WB data links, C2 solutions, Fixed and Mobile Ground Control Stations, Complete Ground Networks for military and police authorities and avionic companies. Its continuous investment in R&D, enthusiasm and consistency in seeking innovative solutions, its young,</p>

	<p>dynamic team trained fully in-house, along with its ability to offer “turnkey” solutions - from design to installation and from planning to after sales service - guarantee IPR’s leading position in the market and make it a safe benchmark in terms of excellence in services offered.</p> <p>IPR has been awarded the most significant military and civil certifications in both aeronautical and company processes, bringing IPR systems in line with the highest European quality standards and making it one of the most reliable partners for private and institutional customers.</p>
<p>JOINTEK Via Generale Dalla Chiesa, 23 21019 Somma Lombardo (VA) Tel. + 39 0331 250336 www.jointek.it</p>	<p>JOINTEK offers flexible hose assemblies and special engineered components - e.g. fittings, valves, couplings - for aerospace hydraulic, fuel and pneumatic systems.</p> <p>JOINTEK was founded in 1991, and in 1994 entered into an agreement with “Parker Hannifin Corporation - Stratoflex Products Division”. The company operates a state-of-the-art hose assembly facility in conformance with “Parker Hannifin Corporation - Stratoflex Products Division” production processes and procedures. The facility is approved by many European aerospace OEMs.</p>
<p>M.P.G. INSTRUMENTS Via P. Mascagni, 42 20030 Senago (MI) Tel. +39 06 40 71 603 www.mpginstruments.com</p>	<p>M.P.G. Instruments srl was founded in 1984, after careful considerations and analysis on the needs for innovation and technology transfer in the field of testing for Telecommunications of Civil, Military and Aerospace Avionics. The company has based its activity on electronic test equipment commercialization, taking care of the customization and defining accuracy standards based on specific requirements of the reference customers.</p> <p>M.P.G. Instruments srl is structured to be able to guarantee up-to-date products and customizable services to its customers, in order to ensure:</p> <ul style="list-style-type: none"> - Constant technological innovation; - Prompt technical assistance; - Accurate maintenance and calibration services. <p>Products: RF Carrier, CNI Avionics Simulators, AGE, STTE & ATE, COTS Instruments</p>

<p>MECAER AVIATION GROUP Via Per Arona, 46 28021 Borgomanero (NO) Tel. +39 0322 8371 www.mecaer.com</p>	<p>With facilities across Europe and North America, MECAER AVIATION GROUP offers Integrated Systems for Helicopters, General Aviation and Business Aircraft. MECAER AVIATION GROUP (MAG) is a leading global provider of solutions for the Aerospace industry. It is highly specialized in-flight control systems, landing gear systems, actuation systems, passenger flight experience enhancement solutions which include interiors, soundproofing, entertainment & communication systems, completion & modification services, as well as MR&O services.</p>
<p>MERLETTI AEROSPACE Via Carducci, 8 21010 Arsago Seprio (VA) Tel. + 39 0331 769577 www.meccanicamerletti.it</p>	<p>MERLETTI AEROSPACE is specialized in manufacturing and assembly of components and sub-assy for aerospace industry and verticalized management of customer orders. Design and manufacturing of tools and fixtures for machining of mechanical parts.</p> <p>Highly developed also in complete construction and assembly of structural components and flight controls, contract management verticalized; high-strength steels, aluminum, titanium and inconel. Final sector of activity: civil fixed-wing aircraft (AIRBUS A380, A320, A321 - SAM 146 (SUPERJET 100) - P180 - FALCON, EFA), military fixed-wing aircraft (Tornado, JSF), Trainers (M346, MB339, SF260), helicopters (AW109, 139, 149, 169, 189, 129 – 101 - NH90), Tilt Rotor (AW 609). GSE for aircraft and helicopters.</p>
<p>O.V.S. VILLELLA Via dello Sport, 26/28 21018, Sesto Calende (VA) Tel. +39 0331 922 380 www.ovsvillella.it</p>	<p>O.V.S. VILLELLA has been founded in 1975 by its actual Manager Peppino Villella as an aeronautical welding company. The company's high-level reliability allowed to enter important sub-supplier markets getting confidence and appreciation by its customers, which are some of the most important in their respective activity fields.</p> <p>Products: Design & Engineering. Working: Tubes and duct, Water-jet cutting, Sheet-metal, NC machining + Multi-tasking Traditional machining, Assemblies.</p> <p>Technologies: (TIG) GTAW manual welding of frames and components</p>

Manual brazing - Surface Treatments – Resistance welding -
Painting - Solid lubricant application - External roll threading
Heat treatments.

Services:

ND inspections: Radiographic, Liquid penetrant, Magnetic
particle. Laboratory test: Tensile, Hardness, Conductivity,
Roughness, Micrograph/Macrograph, Pull-out.
