

Technology Transfer Workshop

07 November 2019

RINA, Via Gran S. Bernardo Palazzo R - 20089 ROZZANO (MI)

Objectives:

- To identify technical needs of terrestrial industries, that could be addressed from solutions originally developed for space
- To strengthen potential cooperation between space and terrestrial industries, driving concrete opportunities
- To promote the mutual knowledge, fundamental basis of industrial symbiosis

9:00	Attendants registration – Welcome	RINA Consulting
9:15	ESA Space Solutions BASS Network in Italy	Roberto Cossu ESA – European Space Agency
9:25	ESA Technology Transfer and Patent Office: What we do and how we can help	Thomas Bouvet ESA – European Space Agency
9:30	The deployment of the ESA Technology Transfer in Italy	Andrea Maria Ferrari RINA Consulting
9:45	Valorisation and Technology Transfer	Lucia Bonventre ASI - Italian Space Agency
10:00	The Support to Innovation of Confindustria local Associations: <i>Innovating Industry in a world awash with technological opportunities</i>	Marco Libretti Associazione Industriale Bresciana
10:10	The Support to Innovation of Confindustria local Associations: <i>From Horizon 2020 to Horizon Europe, Technology Transfer for Aerospace</i>	Mauro Sampellegrini Confindustria Bergamo
10:20	The Support to Innovation of Confindustria local Associations: <i>How to build and connect technological supply chains</i>	Paola Margnini Unione degli Industriali della Provincia di Varese
10:30	Technology transfer as a booster for Industrial Innovation	Daniele Pozzo RINA Consulting
10:40	Innovation for the development of Aerospace Systems: <i>The technological competences and the role of Technology and Scientific Board of Lombardia Aerospace Cluster</i>	Ezio Alippi Lombardia Aerospace Cluster
10:50	Space Technology Transfer - Working theory and results in a practical environment	Marco Cazzaniga D-Orbit
11:00	<i>Coffee Break</i>	
11:20	Workshop Methodology: <ul style="list-style-type: none"> • The process so far: what lead us to the Needs and how to associate them to Space Techs • Working Tables: how to use the space asset and instruments (cards) best to achieve great results together 	Andrea Maria Ferrari RINA Consulting
11:30	First Match-Making Session	All
13:15	<i>Lunch</i>	
14:30	Second Match-Making Session	All
16:30	<i>Wrap-up of the results and Conclusion of the Day</i>
