Products

Design and manufacturing of:
Primary flight controls
Radar sub Assemblies (gimbal, antennas, gyroscopes)
Control units

Technologies

CCA Automatic Assembly and Test
Design to specification
Precision Machining
Special Processes
Aluminum Dip-Brazing

Services

Customized installations for homeland security
Calibration center (LAT)
MRO Services

ELETTRONICA ASTER spa

Leading supplier of electronic and hydraulic equipment since 1945. Electrical & mechanical calibration services, machining services, electronic security systems, radar sub-assemblies, data storage systems, electronic control unit special to type test equipment, customized calibration services, rate gyroscopes. Helicopter actuators, brakes, flow control valves, landing gears, steering systems, hydraulic power packages, heat exchangers/cold plates, precision machining services, aluminium dip brazing (i.e. wave guides).
