### Products

Full Vertical Integration  
Aerospace, Defence, Aircraft  
Engine and Energy Parts  
according to EN 9100 - EASA  
Part 21G

### Technologies

Machining (milling, turning,  
lapping and grinding) up to  
6000 mm and Ø 3000 mm -  
Assembly - Testing - CMC  
in temperature controlled area

### Services

Engineering and Planning -  
Surface Treatment - Inspection -  
NDT - Hot and cold  
bearings/bushings mounting

## MECCANICA MERLETTI srl

*Since 1972, Merletti Aerospace is highly specialized in precision mechanics, assembly and sub-assembly, from planning to construction. Full vertical integration is our remarkable feature which covers engineering, purchasing, machining, surface treatments, NDT, painting and inspection.*
