Quality Control Staff  
Fully-integrated support teams

**Technologies**  
We believe our success is underpinned by the value we attach to our people and the attention we give them during the provision of their service

**Services**  
We offer a wide but specific range of services to aeronautical firms, from project work to post-sales support

**ISATI SRL**  
*ISATI provides specialised support in the aeronautical industry, through the acquisition of contracts, both in the public and private sector for technical assistance, maintenance and logistical support activities.*
