The Cluster

Products: our Pillars

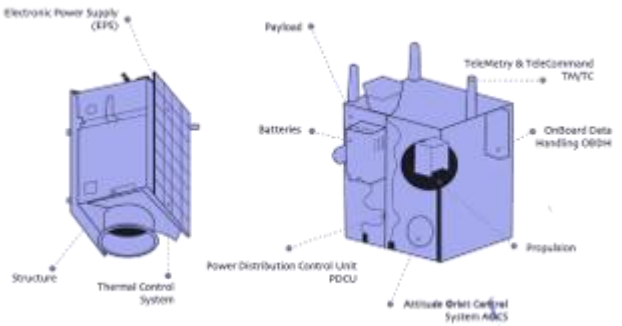

Three levels of flight, three complete supply chains

Hydraulic/electromechanical actuators
Electricity Power Generation and Management
Flight Control System
Radio and communications systems
Avionics and navigation
Landing gear
Release of loads
Ground support
Structures and materials
Components

Hydraulic servo-actuators
Electricity Power Generation and Management
Radio and communication systems
Vibration reduction systems
Interiors
Noise control systems
Avionics and navigation
Landing gear
Structures and materials
Components

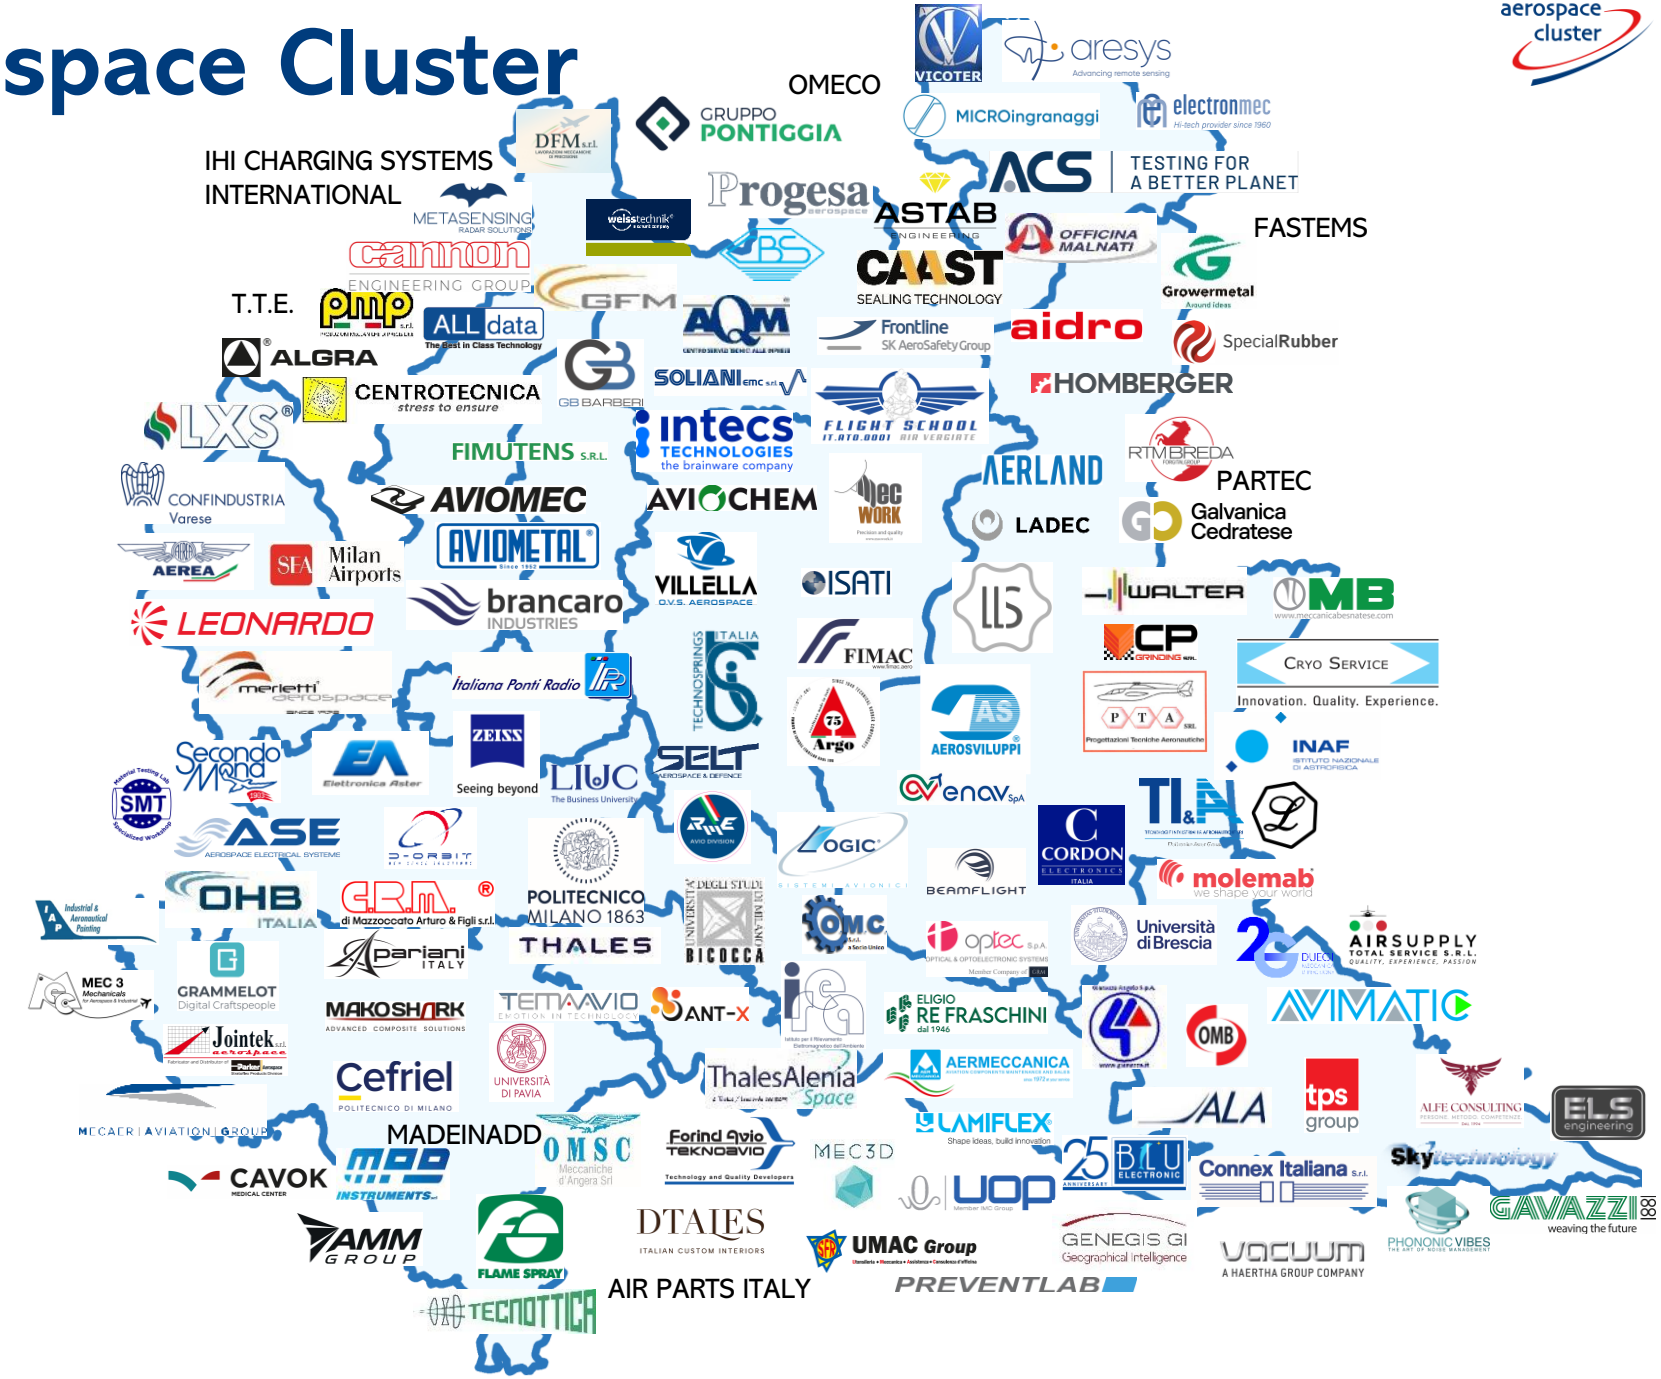

Thermal control
Telemetry and remote control
Orbital and attitude control systems
Data management on board
Propulsion
Batteries
Electronic Power Supply
Ground segment: satellite management and payload data processing
Structures and materials
Components

2025

Strategy

VISION

→ To provide the Lombardian aerospace system with a united, visible and identifiable collective identity, in constant communication with the outside world.

→ To be the interface with Institutions and third parties about initiatives involving the Cluster as a whole (large companies, SMEs, universities, research centres).

MISSION

To stimulate the **competitive growth** of SMEs through the sharing of technological scenarios, the aggregation and development of shared projects.

To foster **innovation**, the key feature of the Cluster, and promote support for research programs, especially towards SMEs..

To modernize the **supply chain** to ensure the competitiveness of SMEs towards major international players.

To promote the productive system and encourage the participation in **national and international airshows**, in order to increase SMEs' competitiveness.

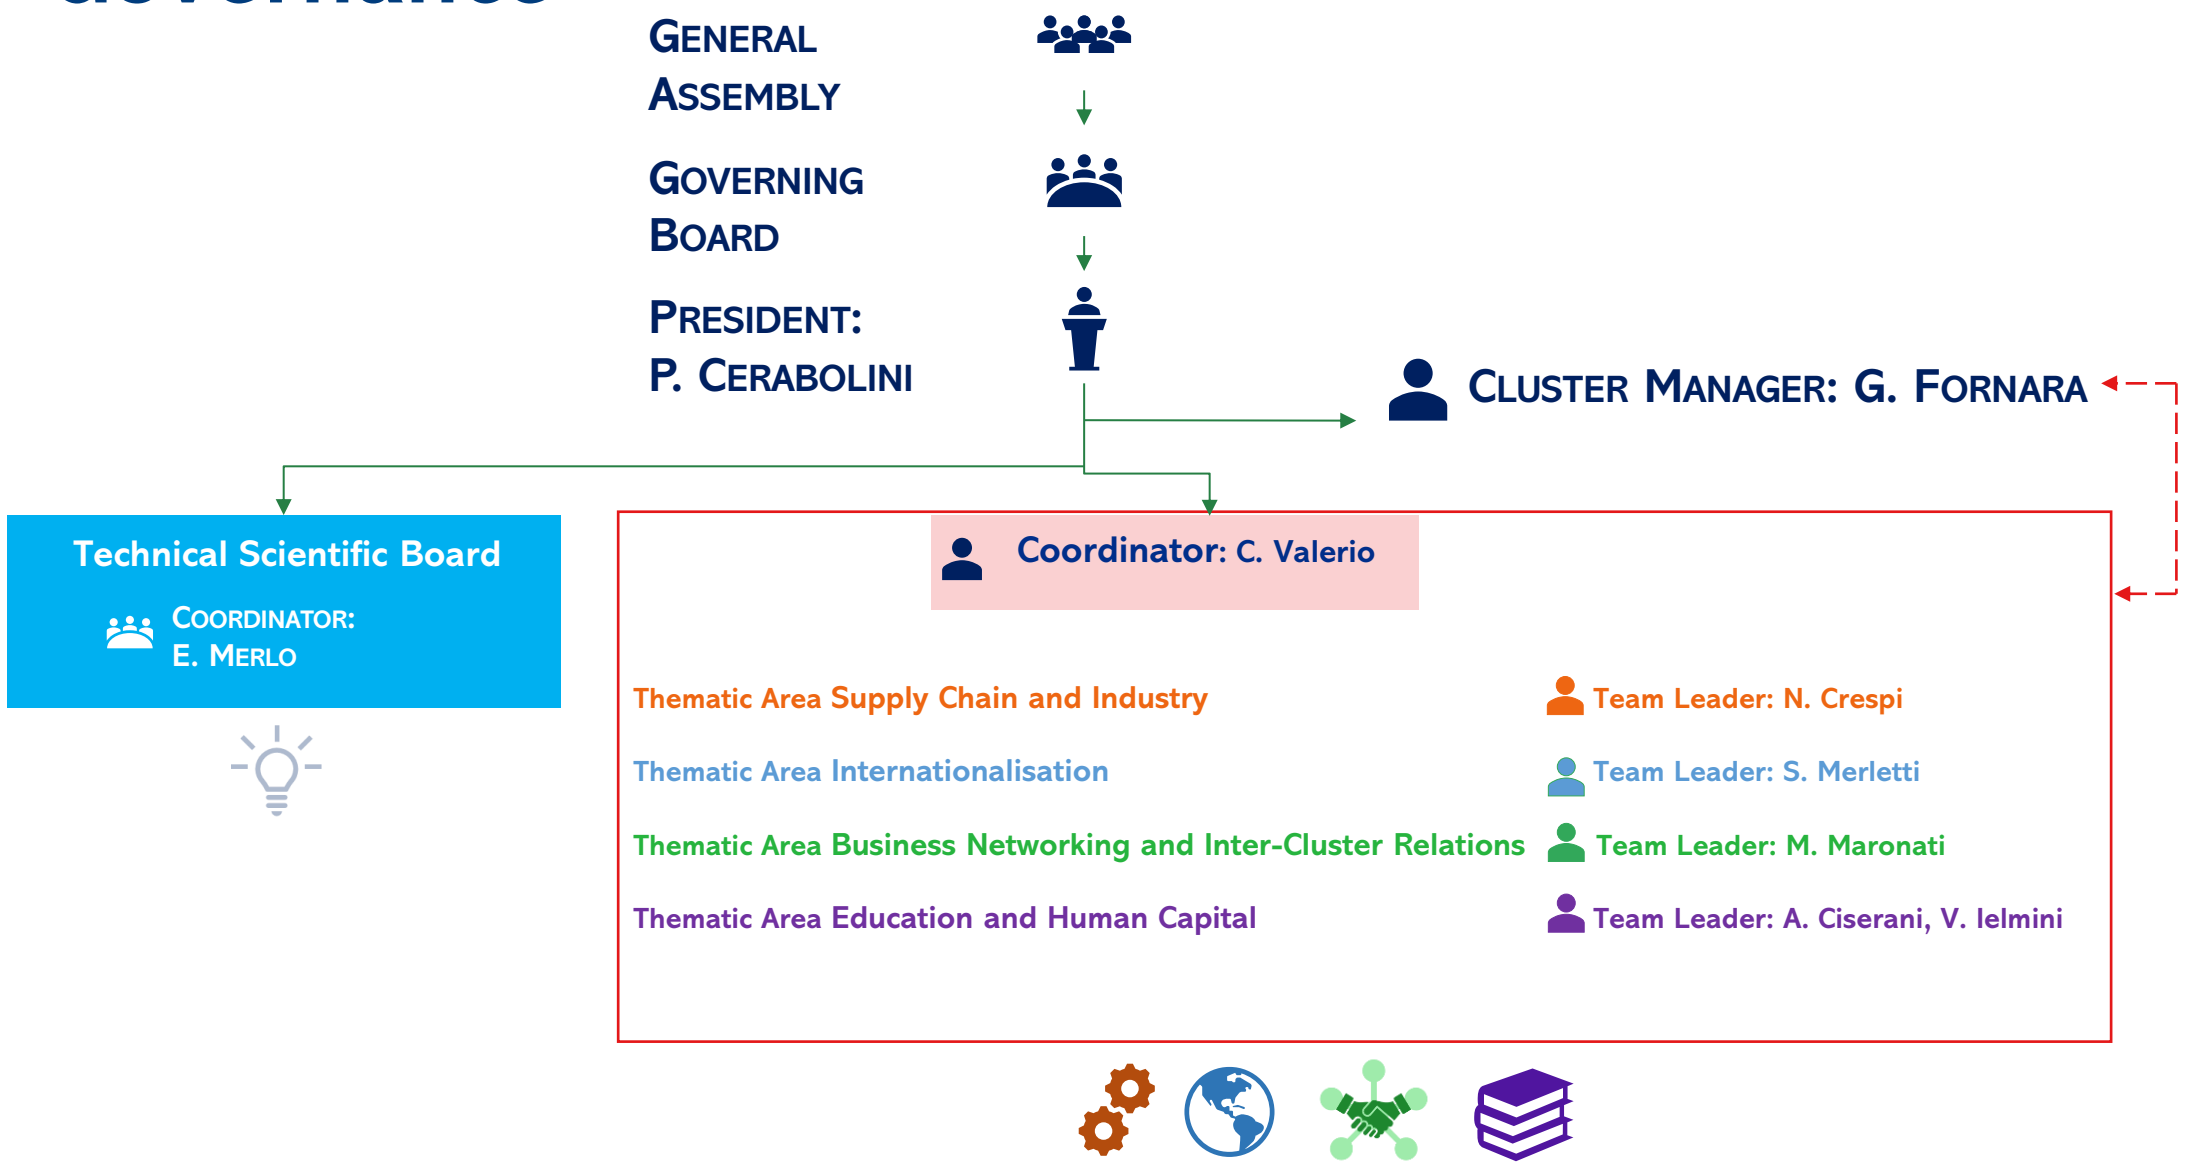

To support and expand the excellence of the Lombardian aerospace and space industry through the creation of a **network** of large companies, SMEs, knowledge system and institutional subjects, which can safeguard the knowledge in the region.

To strengthen the role of **institutional representative** towards Regione Lombardia with regard to industrial, national and European politics in the aerospace sector.

Governance

GENERAL ASSEMBLY
GOVERNING BOARD
PRESIDENT: P. CERABOLINI
CLUSTER MANAGER: G. FORNARA
Technical Scientific Board
COORDINATOR: E. MERLO
Coordinator: C. Valerio
Thematic Area Supply Chain and Industry
Team Leader: N. Crespi
Thematic Area Internationalisation
Team Leader: S. Merletti
Thematic Area Business Networking and Inter-Cluster Relations
Team Leader: M. Maronati
Thematic Area Education and Human Capital
Team Leader: A. Ciserani, V. Ielmini
